May 12, 2017

Dear Vendor,

On **December 9th and 10th, 2017** the twelfth annual RIT Model Railroad Club's Tiger Tracks 2-Day Train Show will take place in Rochester, NY. This show has quickly become one of most well-known shows in the Rochester area. Located at the Gordon Field House on the Rochester Institute of Technology campus, this show features many vendors, organizations, and operating layouts from Z-scale to Live Steam.

We will continue to offer the opportunity to view the club's famous "Rochester and Irondequoit Terminal" HO-scale model railroad (located in the SAU, room A420). After five years of work, the bench-work has been completed, the track work in place, and scenery is well underway. Be sure to come down and take a look, we are sure you will be impressed.

We appreciate your support, so we will do everything we can to help you and make your experience pleasant. We will gladly have our student membership assist you in moving your merchandise in and out of the building and as always, parking is free.

We would like to mention that tables are \$40.00 each, and measure 30" x 96" (8 feet in length). There are multiple ways to reserve a tables at Tiger Tracks. The preferred method of reservation is to visit ritmrc.rit.edu/tigertracks/vendorinfo/ to fill out an application and submit your payment electronically. However, the other way you may reserve tables is by mail using the included flyer. As the date of the event approaches, we will do our best to accommodate all table order requests, but it is possible for us to sell-out (*as has been the case the last four years*). We highly encourage you to get your table orders in ahead of time in order to ensure your spot.

As in years past, we will send out information packets several weeks prior to the date of the event with parking information, and other specific information regarding the show.

If you have any questions or concerns, please contact me or visit our website. Thank you for supporting the RIT Model Railroad Club, and we look forward to another successful year!

Sincerely,

Joseph Cermak
President
RIT Model Railroad Club
